6. **An explanation of the rules, including the agency's reasons for initiating the rules:**

Amendments made to A.R.S. § 17-333 during the 2005 legislative session established new licenses and gave the Commission the authority to prescribe new licenses and accompanying fees for the purposes of wildlife management. The Commission amended its rules earlier this year to implement these statutory changes, but this rulemaking will implement additional necessary changes.

Although statute prescribes the wildlife privileges given under the Class L license, the statute directs the Commission to prescribe the stamps and tags for the Classes M and N licenses. As authorized under A.R.S. § 17-333, purchase of a Class M super conservation hunting license provides the license holder with the same privileges as a Class G general hunting license. Purchase of a Class N super conservation hunting and fishing license provides the license holder with the same privileges as a Class F combination hunting and fishing license and a Class U urban fishing license. The privileges of the Class M and N super conservation licenses also include nonpermit-tags for archery deer, archery turkey, fall bear, and mountain lion, the Unit 12A (North Kaibab) Habitat stamp, the Arizona state migratory bird stamp, and the Arizona migratory waterfowl stamp. Additional nonsubstantive amendments will be made to clearly state the privileges given under statute by purchasing a Class L super conservation fishing license.

Amendments will also be made to correct the fee for a Class I family fishing license prescribed during the previous rulemaking and to clarify the privileges of a Class C and D fishing license. The surcharge authorized under A.R.S. § 17-345 was mistakenly applied to the Class I license twice. The Department will amend the fee for the Classes C and D licenses to clearly state that any additional days purchased for this license must be consecutive.

The Department will amend the rule further by reducing the fee for Class A nonresident general fishing license from \$88.00 to \$70.25. In the Department's previous rulemaking, it charged the maximum fee for the license, plus the \$3.00 surcharge authorized under A.R.S § 17-345. The Department's intent was to increase the Class A fee by adding 50% of the difference between the statutory fee cap recently amended in statute

(\$85.00) and the previous statutory cap (\$49.50), plus the \$3.00 surcharge authorized under A.R.S. § 17-345. The resulting fee would be \$70.25. The Department also wishes to further correct its fees by amending the fee for a fur dealer license. The current fee is \$115.50 and will be amended to \$115.00, reducing it by fifty cents.

The Department will also amend the rule to create new Class F combination hunting and fishing licenses and Class G general hunting licenses for children ages ten to thirteen. When the Department last amended this rule, it authorized the Class J family hunting license and the Class K family combination hunting and fishing license. Under these licenses, a parent could obtain a license for their child, age ten to thirteen, for an additional fee. The Department wishes to be consistent by creating Class G hunting licenses and Class F combination hunting and fishing licenses for this age group. Eligibility for these licenses and their fees will not depend on parental purchase. Under the authority granted under A.R.S. § 17-333(B), the Game and Fish Commission has the authority to establish subclassifications within a class of license, permit, or tag and set a fee for those subclasses. The resident and nonresident Child Class F license for children age ten to thirteen will cost \$20.00 and the resident and nonresident Child Class G license for children age ten to thirteen will cost \$15.00.

The Department is also amending the fee for the Class U urban fishing license to charge 50% of the fee and 50% of the surcharge if the license is purchased in November or December of the year for which the license is valid. For example, if an individual purchases a 2007 fishing license in December, the individual will pay \$9.25 instead of the full price, \$18.50.

The Department will also amend the list of hunt permit-tags to include pheasant. The fee will be clarified as well as clarification that a hunt permit-tag is not necessary for those hunting pheasant using archery or falconry.

Minor amendments will also be made to the list of stamps for which duplicates are not issued. The list will be amended to include the two-pole stamp, stamps for additional fishing days issued under the Class C and D licenses for both residents and nonresidents, and the Unit 12A (North Kaibab) Habitat Management Stamp.

The Department will also amend R12-4-203 principally to support the amendments made to R12-4-102. The Department will amend subsections (A)(1) to require possession of a current valid federal waterfowl stamp, as mandated by federal regulation for the take of ducks, geese, or swans. Both subsections (A)(1) and (2) will be amended to clearly state that a Class M or N super conservation license includes a state waterfowl stamp and a state migratory bird stamp. The Department will also delete blue grouse from the rule, because it is no longer necessary to obtain species information through the harvest information program. Both state and federal wildlife agencies have alternative, more effective means of gathering wildlife data on the species. Also, blue grouse is considered to be an upland game bird, not waterfowl nor migratory.

7. **A reference to any study relevant to the rules that the agency reviewed and either relied on or did not rely on in its evaluation of or justification for the rules, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:**

The agency did not rely on any study in its evaluation of or justification for the rules.

8. **A showing of good cause why the rules are necessary to promote a statewide interest if the rules will diminish a previous grant of authority of a political subdivision of this state:**

Not applicable

9. **The summary of the economic, small business, and consumer impact:**

The Department anticipates that the rulemaking will benefit the general public by clearly establishing the privileges given by purchasing a Class L, M, or N super conservation license. The rulemaking will also benefit purchasers by giving them more opportunities to enjoy the state's wildlife resources. By giving purchasers more opportunities, hunters will help the Department more closely meet its management objectives for species for which nonpermit-tags are issued, such as bear or mountain lion. The Department will have to address administrative costs for documenting the sale of migratory bird and waterfowl stamps. However, purchase of a super conservation license will save the consumer \$32 for a Class M license, and \$27.25 for a Class N over purchasing all the tags and stamps separately. Amendments regarding the Class L

license will not create significant impact. The amendments regarding the Class C, D, and I licenses will also not create a significant impact. Until the rulemaking becomes effective, the Department is pursuing additional means outside of rulemaking to ensure that the appropriate amount is charged to the regulated community. Reducing the fees for the Class A fishing nonresident license and the fur dealer license will ensure the correct amount is charged to the public. Prescribing new fees for Class F and G child licenses will benefit those eligible to purchase it, because they will not have to pay the youth or adult prices for the same privilege. This will result in a savings of \$6.50 for the resident Class F license, \$17.25 for the resident Class G license, and \$136.25 for the nonresident Class G license. Amendments made to the Class U license, to clarify the list of items for which duplicates are not issued, amendments made to the privileges given by receiving a pheasant hunt permit-tag, and the amendments to R12-4-203 will not affect the general public. The rulemaking will not affect other agencies or businesses, or public or private employment. The Department has determined there are no alternate means of achieving the objective of the rulemaking.

10. **A description of the changes between the proposed rules, including supplemental notices, and final rules (if applicable):**

Other than minor grammatical and formatting changes recommended by GRRC staff, no changes have been made between the Notice of Proposed Rulemaking and this notice.

11. **A summary of the comments made regarding the rules and the agency responses to them:**

The Department did not receive any comments regarding these rules.

12. **Any other matters prescribed by statute that are applicable to the specific agency or to any specific rule or class of rules:**

Not applicable

13. **Incorporations by reference and their location in the rules:**

None

14. **Were these rules previously made as emergency rules?**

No
